30 YEARS OF INDUSTRY EXPERTISE IN SUPERIOR DATA STORAGE SOLUTIONS

Data Solution Expertise

We solve key challenges IT managers encounter in protecting their data:

- Mass Storage Solutions
- High Performance Storage
- Data Archiving
- Replication
- De-duplication
- Disaster Recovery
- Multi-Tier Storage Design
- Business Continuity
- Storage Infrastructure (Experts in all protocols including Fibre Channel, iSCSI, FCoE, 10 Gig Ethernet and Infiniband)

The SANDirect Government Services Advantage

Our storage architects are trained and certified in SAN, NAS and DAS to lead you through the entire analysis, design, and implementation process. Because we work with a wide range of the industry's leading vendors, we can customize every product to meet your exact needs.

As a Service-Disabled Veteran-Owned Small Business, we take pride in offering the highest quality cost effective solutions that deliver the highest level of performance, security, capacity, and accessibility.

Products

Our vendor agnostic approach allows us to choose from a wide range of products to find the best solution for your specific data storage needs. And our longstanding relationships with the industry's leading manufacturers help us give you the most competitive pricing. Some of the products we offer include:

Storage Systems

- Nexsan
- EMC
- Dell
- Dell/EqualLogic
- Hitachi Data Systems
- Isilon
- NetApp
- Scale Computing
- SSD products, including RamSan and Fusion-io

Infrastructure

- Q-Logic
- Brocade
- Hitachi Data Systems
- EMC
- Dell
- NetApp

Backup & Archiving Software Tape Libraries, VTL and Deduplication Systems

Services

Our storage architects have more than 30 years of combined experience working with the leading vendors in the storage industry. Our goal is to create the best available solution for your organization and seamlessly integrate it with your existing systems.

Our services include:

- Pre-installation Planning
- Design and Implementation
- Performance Analysis
- Consultation Services
- Business Continuation and Disaster Recovery Planning
- Cloud Services
- Replication Services
